Forensic Science International

SUBJECT INDEX
Volume 62 (1993)

abstinence-oriented therapies, drug policy, communication-orientated drug-prevention, 1
accidental overdose, heroin, availability and quality, tolerance, psycho-social crisis, suicidal behavior, 129
acquired immune deficiency syndrome (AIDS), intravenous drug addiction, heroin, human immunodeficiency virus (HIV), polymerase chain reaction (PCR), central nervous system (CNS), 101
addiction, methadone, harm reduction, narcotics, heroin, 9
addiction patterns, drug-related deaths, opioids, polyvalent drug abuse, alcoholism, drug career, 151
addicts, British system, controls, Central Funding Initiative, drug offenders, 37
additional alcohol consumption, drug-related emergencies, drug abuse deaths, HIV-prevalence, hepatitis B and C, vigilance parameters, 161
AIDS, drug dependence/abuse, drug injecting, HIV infection, Southeast Asia, 15
AIDS, drug-related deaths, undetected causes, illicit drugs, urine screening, narcotics-related suicides, drug addict aquired diseases, 157
alcohol induced hypoglycemia, sudden death, beta hydroxybutyrate, alcoholic ketosis, 225
alcoholic ketosis, sudden death, alcohol induced hypoglycemia, beta hydroxybutyrate, 225
alcoholism, drug-related deaths, addiction patterns, opioids, polyvalent drug abuse, drug career, 151
alveolar macrophages, drowning, morphometry, immunohistochemistry, 217
availability and quality, accidental overdose, heroin, tolerance, psycho-social crisis, suicidal behavior, 129

bacterial infections in drug users, drug-associated risks, tuberculosis in drug users, HIV-progression in drug users, viral hepatitis A–C in drug users, methadone substitution, 67
bacteriological findings, drug abuse, pathological findings, interdisciplinary cooperation, 147
beta hydroxybutyrate, sudden death, alcohol induced hypoglycemia, alcoholic ketosis, 225
bibliometrics, peer-review, citations, impact factor, 173
blood-alcohol concentration, drug-related death, heroin, HIV-1-prevalence, hepatitis C, 121
British system, controls, addicts, Central Funding Initiative, drug offenders, 37

capillary GC, diphenylmethane antihistaminics, diphenhydramine, chlorpheniramine, mass spectroscopy, Sep-Pak C_{18} cartridge, negative ion, 187
Central Funding Initiative, British system, controls, addicts, drug offenders, 37
central nervous system (CNS), intravenous drug addiction, heroin, acquired immune deficiency syndrome (AIDS), human immunodeficiency virus (HIV), polymerase chain reaction (PCR), 101
chlorpheniramine, diphenylmethane antihistaminics, diphenhydramine, mass spectroscopy, Sep-Pak C_{18} cartridge, capillary GC, negative ion, 187
citations, bibliometrics, peer-review, impact factor, 173
communication-orientated drug-prevention, drug policy, abstinence-oriented therapies, 1
controls, British system, addicts, Central Funding Initiative, drug offenders, 37

decision making, health policy, political strategy, history, prohibition, 45
delta-9-THC (delta-9-tetrahydro-cannabiol), juvenile deliquency, synthetic glues, 29
detoxification, drug addiction, weaning and rehabilitation, legalizing debate, 49

0379-0738/93/$06.00 © 1993 Elsevier Scientific Publishers Ireland Ltd. All rights reserved.
SSDI 0379-0738(93)01470-C

dihydrocodeine, drug death, drug substitution, illegal drug abuse, HIV infection, 135
diphenhydramine, diphenylmethane antihistaminics, chlorpheniramine, mass spectroscopy, Sep-Pak C_{18} cartridge, capillary GC, negative ion, 187
diphenylmethane antihistaminics, diphenhydramine, chlorpheniramine, mass spectroscopy, Sep-Pak C_{18} cartridge, capillary GC, negative ion, 187
diquat, paraquat, phenolic extraction, hemolysate, second-derivative spectroscopy, 179
driving ability, methadone maintenance, drug abuse, evaluation of driving ability, 63
drowning, alveolar macrophages, morphometry, immunohistochemistry, 217
drug abuse, methadone maintenance, driving ability, evaluation of driving ability, 63
drug abuse, pathological findings, bacteriological findings, interdisciplinary cooperation, 147
drug abuse deaths, drug-related emergencies, HIV-prevalence, hepatitis B and C, additional alcohol consumption, vigilance parameters, 161
drug abuse emergencies, illicit drug scence, rescue system, naloxon therapy, 167
drug addict aquired diseases, drug-related deaths, undetected causes, illicit drugs, urine screening, narcotics-related suicides, AIDS, 157
drug addiction, detoxification, weaning and rehabilitation, legalizing debate, 49
drug career, drug-related deaths, addiction patterns, opioids, polyvalent drug abuse, alcoholism, 151
drug death, dihydrocodeine, drug substitution, illegal drug abuse, HIV infection, 135
drug deaths, drug victims, drugs of abuse, Western Austria, Tyrol, Vorarlberg, forensic and toxicological investigation, 141
drug deaths, multicenter study, epidemiology, HIV-prevalence, 89
drug dependence/abuse, drug injecting, HIV infection, AIDS, Southeast Asia, 15
drug emergencies, drug-related deaths, sex differences in drug intoxications, 111
drug emergency cases, drug mortality, drug intoxications, local drug counselling, local care for drug addicts, medical care for drug addicts, 107
drug emergency patients, drug intoxication, medical and psycho-social care for drug emergency patients, 117
drug injecting, drug dependence/abuse, HIV infection, AIDS, Southeast Asia, 15
drug intoxication, drug emergency patients, medical and psycho-social care for drug emergency patients, 117
drug intoxications, drug mortality, drug emergency cases, local drug counselling, local care for drug addicts, medical care for drug addicts, 107
drug mortality, drug emergency cases, drug intoxications, local drug counselling, local care for drug addicts, medical care for drug addicts, 107
drug offenders, British system, controls, addicts, Central Funding Initiative, 37
drug policy, communication-orientated drug-prevention, abstinence-oriented therapies, 1
drug substitution, dihydrocodeine, drug death, illegal drug abuse, HIV infection, 135
drug users (or IVDU/IDU), methadone, methadone-substitution, methadone programmes, methadone dispensaries, 57
drug victims, drug deaths, drugs of abuse, Western Austria, Tyrol, Vorarlberg, forensic and toxicological investigation, 141
drug-associated risks, tuberculosis in drug users, HIV-progression in drug users, viral hepatitis A–C in drug users, bacterial infections in drug users, methadone substitution, 67
drug-related death, heroin, HIV-1-prevalence, hepatitis C, blood-alcohol concentration, 121
drug-related deaths, addiction patterns, opioids, polyvalent drug abuse, alcoholism, drug career, 151
drug-related deaths, drug emergencies, sex differences in drug intoxications, 111
drug-related deaths, undetected causes, illicit drugs, urine screening, narcotics-related suicides, drug addict aquired diseases, AIDS, 157
drug-related emergencies, drug abuse deaths, HIV-prevalence, hepatitis B and C, additional alcohol consumption, vigilance parameters, 161
drugs of abuse, drug deaths, drug victims, Western Austria, Tyrol, Vorarlberg, forensic and toxicological investigation, 141

epidemiology, multicenter study, drug deaths, HIV-prevalence, 89
ethanol, methamphetamine, internal use, sudden death, 209
evaluation of driving ability, methadone maintenance, driving ability, drug abuse, 63

forensic and toxicological investigation, drug deaths, drug victims, drugs of abuse, Western Austria, Tyrol, Vorarlberg, 141

harm reduction, methadone, addiction, narcotics, heroin, 9
health policy, political strategy, decision making, history, prohibition, 45
hemolysate, paraquat, diquat, phenolic extraction, second-derivative spectroscopy, 179
hepatitis B and C, drug-related emergencies, drug abuse deaths, HIV-prevalence, additional alcohol consumption, vigilance parameters, 161
Hepatitis B and C, HIV infection in Australia, 83
hepatitis C, drug-related death, heroin, HIV-1-prevalence, blood-alcohol concentration, 121
heroin, accidental overdose, availability and quality, tolerance, psycho-social crisis, suicidal behavior, 129
heroin, drug-related death, HIV-1-prevalence, hepatitis C, blood-alcohol concentration, 121
heroin, intravenous drug addiction, acquired immune deficiency syndrome (AIDS), human immunodeficiency virus (HIV), polymerase chain reaction (PCR), central nervous system (CNS), 101
heroin, methadone, addiction, harm reduction, narcotics, 9
history, health policy, political strategy, decision making, prohibition, 45
HIV infection, dihydrocodeine, drug death, drug substitution, illegal drug abuse, 135
HIV infection, drug dependence/abuse, drug injecting, AIDS, Southeast Asia, 15
HIV infection, IDU, natrual history, 95
HIV infection, injecting drug users, risk behaviour, risk reduction, 73
HIV infection in Australia, Hepatitis B and C, 83
HIV-1-prevalence, drug-related death, heroin, hepatitis C, blood-alcohol concentratio, 121
HIV-prevalence, drug-related emergencies, drug abuse deaths, hepatitis B and C, additional alcohol consumption, vigilance parameters, 161
HIV-prevalence, multicenter study, drug deaths, epidemiology, 89
HIV-progression in drug users, drug-associated risks, tuberculosis in drug users, viral hepatitis A–C in drug users, bacterial infections in drug users, methadone substitution, 67
human immunodeficiency virus (HIV), intravenous drug addiction, heroin, acquired immune deficiency syndrome (AIDS), polymerase chain reaction (PCR), central nervous system (CNS), 101

IDU, HIV infection, natrual history, 95
illegal drug abuse, dihydrocodeine, drug death, drug substitution, HIV infection, 135
illicit drug scence, drug abuse emergencies, rescue system, naloxon therapy, 167
illicit drugs, drug-related deaths, undetected causes, urine screening, narcotics-related suicides, drug addict aquired diseases, AIDS, 157
immunohistochemistry, alveolar macrophages, drowning, morphometry, 217
impact factor, bibliometrics, peer-review, citations, 173
injecting drug users, HIV infection, risk behaviour, risk reduction, 73
interdisciplinary cooperation, drug abuse, pathological findings, bacteriological findings, 147
internal use, methamphetamine, ethanol, sudden death, 209
intravenous drug addiction, heroin, acquired immune deficiency syndrome (AIDS), human immunodeficiency virus (HIV), polymerase chain reaction (PCR), central nervous system (CNS), 101

juvenile deliquency, synthetic glues, delta-9-THC (delta-9-tetrahydro-cannabiol), 29

legalizing debate, drug addiction, detoxification, weaning and rehabilitation, 49
local care for drug addicts, drug mortality, drug emergency cases, drug intoxications, local drug counselling, medical care for drug addicts, 107
local drug counselling, drug mortality, drug emergency cases, drug intoxications, local care for drug addicts, medical care for drug addicts, 107

mass spectroscopy, diphenylmethane antihistaminics, diphenhydramine, chlorpheniramine, Sep-Pak C_{18} cartridge, capillary GC, negative ion, 187
medical and psycho-social care for drug emergency patients, drug intoxication, drug emergency patients, 117
medical care for drug addicts, drug mortality, drug emergency cases, drug intoxications, local drug counselling, local care for drug addicts, 107
methadone, addiction, harm reduction, narcotics, heroin, 9
methadone, drug users (or IVDU/IDU), methadone-substitution, methadone programmes, methadone dispensaries, 57
methdone dispensaries, drug users (or IVDU/IDU), methadone, methadone-substitution, methadone programmes, 57

methadone maintenance, driving ability, drug abuse, evaluation of driving ability, 63
methadone programmes, drug users (or IVDU/IDU), methadone, methadone-substitution, methadone dispensaries, 57
methadone substitution, drug-associated risks, tuberculosis in drug users, HIV-progression in drug users, viral hepatitis A–C in drug users, bacterial infections in drug users, 67
methadone-substitution, drug users (or IVDU/IDU), methadone, methadone programmes, methadone dispensaries, 57
methamphetamine, ethanol, internal use, sudden death, 209
morphometry, alveolar macrophages, drowning, immunohistochemistry, 217
multicenter study, drug deaths, epidemiology, HIV-prevalence, 89

naloxon therapy, drug abuse emergencies, illicit drug scence, rescue system, 167
narcotics, methadone, addiction, harm reduction, heroin, 9
narcotics-related suicides, drug-related deaths, undetected causes, illicit drugs, urine screening, drug addict aquired diseases, AIDS, 157
natrual history, IDU, HIV infection, 95
negative ion, diphenylmethane antihistaminics, diphenhydramine, chlorpheniramine, mass spectroscopy, Sep-Pak C_{18} cartridge, capillary GC, 187

opioids, drug-related deaths, addiction patterns, polyvalent drug abuse, alcoholism, drug career, 151

paraquat, diquat, phenolic extraction, hemolysate, second-derivative spectroscopy, 179
pathological findings, drug abuse, bacteriological findings, interdisciplinary cooperation, 147
peer-review, bibliometrics, citations, impact factor, 173
phenolic extraction, paraquat, diquat, hemolysate, second-derivative spectroscopy, 179
politicl strategy, health policy, decision making, history, prohibition, 45
polymerase chain reaction (PCR), intravenous drug addiction, heroin, acquired immune deficiency syndrome (AIDS), human immunodeficiency virus (HIV), central nervous system (CNS), 101
polyvalent drug abuse, drug-related deaths, addiction patterns, opioids, alcoholism, drug career, 151
prohibition, health policy, political strategy, decision making, history, 45
psycho-social crisis, accidental overdose, heroin, availability and quality, tolerance, suicidal behavior, 129

rescue system, drug abuse emergencies, illicit drug scence, naloxon therapy, 167
risk behaviour, HIV infection, injecting drug users, risk reduction, 73
risk reduction, HIV infection, injecting drug users, risk behaviour, 73

second-derivative spectroscopy, paraquat, diquat, phenolic extraction, hemolysate, 179
Sep-Pak C_{18} cartridge, diphenylmethane antihistaminics, diphenhydramine, chlorpheniramine, mass spectroscopy, capillary GC, negative ion, 187
sex differences in drug intoxications, drug emergencies, drug-related deaths, 111
Southeast Asia, drug dependence/abuse, drug injecting, HIV infection, AIDS, 15
sudden death, alcohol induced hypoglycemia, beta hydroxybutyrate, alcoholic ketosis, 225
sudden death, methamphetamine, ethanol, internal use, 209
suicidal behavior, accidental overdose, heroin, availability and quality, tolerance, psycho-social crisis, 129
synthetic glues, juvenile deliquency, delta-9-THC (delta-9-tetrahydro-cannabiol), 29

tolerance, accidental overdose, heroin, availability and quality, psycho-social crisis, suicidal behavior, 129
tuberculosis in drug users, drug-associated risks, HIV-progression in drug users, viral hepatitis A–C in drug users, bacterial infections in drug users, methadone substitution, 67
Tyrol, drug deaths, drug victims, drugs of abuse, Western Austria, Vorarlberg, forensic and toxicological investigation, 141

undetected causes, drug-related deaths, illicit drugs, urine screening, narcotics-related suicides, drug addict aquired diseases, AIDS, 157
urine screening, drug-related deaths, undetected causes, illicit drugs, narcotics-related suicides, drug addict aquired diseases, AIDS, 157

vigilance parameters, drug-related emergencies, drug abuse deaths, HIV-prevalence, hepatitis

B and C, additional alcohol consumption, 161
viral hepatitis A–C in drug users, drug-associated risks, tuberculosis in drug users, HIV-progression in drug users, bacterial infections in drug users, methadone substitution, 67
Vorarlberg, drug deaths, drug victims, drugs of abuse, Western Austria, Tyrol, forensic and toxicological investigation, 141

weaning and rehabilitation, drug addiction, detoxification, legalizing debate, 49
Western Austria, drug deaths, drug victims, drugs of abuse, Tyrol, Vorarlberg, forensic and toxicological investigation, 141
